

Year 4 Summer Newsletter

English

In English we will be using our topic of the Egyptians to create newspaper reports. We will also be looking at different books and novels which raise dilemmas, creating writing from this. The children will continue looking at different aspects of grammar within their work as part of our English lessons.

Lineham Farm

During the Summer term Year 4 will be going on their residential visit to Lineham Farm! Please make sure you send any payments into school with the card your child was given so we can record it. The final balance is due on the **02.05.19**.

Topic(History/Geography)

During the Summer term we will be looking at the Ancient Egyptians as our Topic. We will be exploring the Egyptian way of life and death! We had a fantastic Egyptian Day to start off our topic!

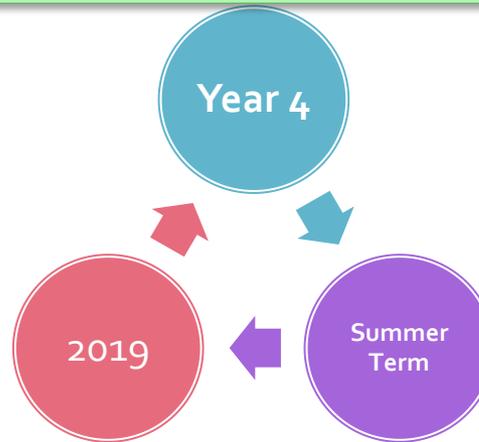

Maths

This term we will continue to focus us:

- Solving mathematical problems, looking at and explaining patterns.
- Explaining our methods and reasoning orally and in writing.

We will also be covering statistics and geometry looking at angles and symmetry within shapes as well as time and measures.

Science: The focus this term will be on living things and different habitats which will link with our trip to Lineham Farm. We also look at the human impact we have on the environment.

Homework

Spellings and Maths or English homework will continue to be sent out on a Friday. Another part of this is their home reading. Can you please ensure that your child changes their book as often as possible? The more they read, the better readers they become!

PE

On a Friday afternoon the children will be taught by a member of the Leeds Rhinos Coaching in Schools. P.E is also taught on a Wednesday afternoon.

Swimming has now finished.

Children should have an indoor and outdoor kit (including trainers) at school at all times as we may need to be flexible.

RE: The impact of Pentecost and how believers show their commitment through life.

PSHE: Bullying and Managing my Feelings

COMPUTING:

The children will be looking at programming using Code Club and creating their own visual stories.

Art: We focus on the work and art of Vincent Van Gogh.

Music: Exploring Descriptive and Rhythmic Sounds and Patterns.
