

English

The written work for the Summer Term will be focused towards to KS2 reading and writing assessments.

Writing-

Children will be provided with opportunities to inspire their writing from Poetry days to Drama workshops where they will be writing scripts. They will also have the first part of the term to do lots of self editing and up-levelling of their work as they have now become keen and talented writers.

Reading Comprehension-

Activities have been planned so that they use current music and classical novels, articles and letters to engage our children into retrieving, inferencing and choosing information from a range of text types.

Homework

As we prepare for SATs it is important that the children use the revision book as much as possible. Children should be working on any area they feel necessary as everyone has different needs. This means as a tool for revision they should be independently revising at least 3 times pre week as well as any handouts that are given.

Spelling will be given out on a Thursday, ready for the following Wednesday. English and Topic work will be on going projects.

The children should read to an adult at least **3 times per week**. Please record this in their diaries.

Inspiration

We have planned some exciting events across this year to give inspiration to our young writers and help them with key skills as they prepare to move onto their secondary schools. This term we have poetry day, Drama workshops, Our end of year show, Enterprise week where children will become entrepreneurs.

Maths

This term we will be:

A revision of all areas on maths. We will be continuing to practise our fluency of the Arithmetic every morning and move onto the problem solving and reasoning within lessons. Year 6 must continue to practise the KIRF's from term 1 and 2.

Online Maths Skills:

<http://community.mathletics.com/signin/#/student>

<https://www.sumdog.com/>

They have also been sent home a sheet which covers all of the Year 6 objectives for Maths and Writing. Please use this as guide to help your child recap and revise different areas. 'Little and often is key'.

Project (History/Geography)

'Who do you think you are? Here we will look into our local history and children look into their family history and share their identity through presentations.

Science

Within science this term we will be looking at electricity and inspirational scientists of all races and genders.

RE: Worship 'How do religions help people live through good and bad times?' Sikhism.

PSHE: Puberty and Relationship Education

COMPUTING:

Links to PSHE, Science and R.E. Designing and planning a business-fundraising

Art: This will be linked with our end of year show 'Architects and designers, props and scenery'

Music: This will be linked to our end of year show.

PE

Basketball tactics-Attacking and defending
