Creative Writing Tasks Like last couple of weeks, I have included a resource called 'Creative Writing Tasks 3'. You should choose one task for Thursday and one for Friday. The choice is yours!				

Details of the maths work this week

The link you need is <https://whiterosemaths.com/homelearning/year-5/> - Browse to **Summer Term – Week 5**

For each of the maths lessons there is a video tutorial to watch, linked tasks and answers. I have attached the tasks and answers to the email but they are on the White Rose page too. The tutorial videos do some input teaching which the children can use to help them with the tasks.

If you can, or want to print the tasks, that is fine (then stick them into your Home Learning Book) **or** just read the questions off the screen and write the answers into your book.

First News VIPERS Challenge

Read the copy of 'First News' which I have sent with this week's planning. As a change this week, instead of you answering reading comprehension questions, **you are going to write some!**

I would like you to think of 6 questions, one for each of the VIPERS reading skills which we use when we are doing our 'Cracking Comprehension' lessons with Miss Emmerson.

Miss Emmerson would then like you to email your best question back to the Year 5 address and she will try to answer it!

I have attached some notes to remind you about what VIPERS stands for.

Good Luck with catching Miss Emmerson out.

Grammar Task

Watch the videos and information on the link below about modal verbs

<https://www.bbc.co.uk/bitesize/topics/z4hrt39/articles/zfbyb82>

Now complete the Desert Island task using a range of modal verbs

Geography Challenge for the week

Following on from your previous work on coastal features, this week I would like you to label an image of a coastline identifying the features on the list.

These include some of the features you wrote definitions for and some new ones which you will have come across in the book I set for you on EPIC! reading.

To help identify the features I have also included a colour version of the image to help the features stand out.

If you are unable to print the sheet for this week, look at the image on the screen and find the features. Then, into your Home Learning book, write the name of the feature and draw a picture of it.

The resources you need to complete the tasks are attached to the weekly email and available to download from the Year 5 class page on the school website. (<https://whinmoorstpauls.co.uk/classes/year-5/>)
